

HPE Alletra Storage 9000

What's new

- Greater choice for customers that desire drive-level encryption with the introduction of NVMe SFF self-encrypting SSDs for all Alletra 9000 capacity formats.

Overview

Is your enterprise class storage holding you back because you are tied down administering, tuning, and supporting infrastructure? Are you looking to shift from managing disparate clouds to a cloud everywhere experience with the same agility, simplicity, and cloud consumption for every application?

HPE Alletra Storage 9000 is a edge-to-core portfolio designed to deliver the cloud experience wherever data lives. For mission-critical workloads, HPE Alletra Storage 9000 delivers extreme low-latency, reliability and maximum performance density in a 4U enclosure. It enables IT to shift from owning and maintaining data infrastructure to simply accessing and utilizing it on-demand and as-a-service. Built on a unique, massively parallel, multi-node, and all-active platform, HPE Alletra Storage 9000 consolidates traditional and next-generation mission-critical applications at scale with predictable performance and ultra-low latency, backed by a 100% availability guarantee. [1]

Features

AI-driven

Predict and prevent disruptions across storage, services, and virtual machines, resulting in savings of over 1.5 million hours of lost productivity due to downtime.

Redefine support experience with predictive support automation that delivers an unprecedented support experience with no escalations and direct access to resources.

Pinpoint issues between storage and VMs and underutilized virtual resources without effort.

Take the guesswork out of managing data infrastructure with AI-driven recommendations that improves performance, drives higher availability, and optimizes resource utilization and planning.

Built for Cloud

Setup in minutes because systems are automatically discovered, on-boarded, and configured.

Say goodbye to time-consuming, LUN-centric provisioning with AI-driven, intent-based provisioning of application workloads on infrastructure best suited for optimizing SLAs.

Experience faster access to innovation with no disruptions because new features and enhancements are instantly available through self-service upgrades.

Manage from anywhere with simple global management driven through a SaaS-based user experience.

As-a-Service

Consume data infrastructure as-a-service via HPE GreenLake, eliminating up front capital costs with a pay-per-use model.

Shift from owning and maintaining data infrastructure to simple accessing and utilizing it on-demand.

Free up your cash flow and increase financial agility with the right mix of subscription and consumption-based services.

Online Non-disruptive Data-in-Place (DIPU) Controller Upgrades

Increase performance by upgrading from an HPE Alletra 9060 to an HPE Alletra 9080 without a forklift upgrade.

Online data-in-place upgrades preserves customers existing investment in hardware, drives and drive enclosures.

No data migration required, all online and non-disruptively

Technical specifications		HPE Alletra Storage 9000
Drive description	NVMe SFF FIPS encrypted SSD; NVMe SFF SSD; NVMe SFF FIPS encrypted TAA SSD	
Capacity	HPE Alletra 9060: 1966 TiB (raw) / 6103 TiB (effective); HPE Alletra 9080: 1966 TiB (raw) / 6103 TiB (effective); Effective capacity assumes 4:1 estimated data compaction rate (including: thin provisioning, deduplication, compression, and copy technologies) in a RAID 6 (10+2) configuration. Note TB vs TiB. Actual ratios will vary based on workload. See HPE StoreMore guarantee for more information.	
Host interface	32Gb/s Fibre Channel; 16Gb/s Fibre Channel; 25 Gb Ethernet; 10 Gb Ethernet; 10 GBaseT Ethernet	
Storage controller	HPE Alletra 9060 2N Controller; HPE Alletra 9080 2N Controller	
Maximum drives per enclosure	144 (HPE Alletra 4N with four HPE Alletra 2240 drive enclosures)	
Cache	HPE Alletra 9060: 1024GiB; HPE Alletra 9080: 3072GiB	
Availability features	Redundant power and cooling modules with battery and fans; A minimum of dual redundant controller nodes, max of four controller nodes for added redundancy; RAID 6 for data protection	
Compatible operating systems	Microsoft Windows Server; Microsoft Windows Hyper-V; HP-UX; SUSE Linux Enterprise Server (SLES); Red Hat Enterprise Linux (RHEL); VMware ESX and ESXi; Oracle Solaris; Oracle Linux; Citrix Hypervisor ; IBM AIX; IBM Virtualization; VSI OpenVMS	
Product dimensions	Base Chassis: 483 x 839 x 174 cm (W/D/H) Drive Enclosure: 483 x 839 x 87.5 cm (W/D/H)	
Weight	HPE Alletra 9000 with 2 nodes: 49.1 kg; HPE Alletra 9000 with 4 nodes: 70.9 kg; HPE Alletra 2240 Drive Enclosure: 28.6lb; (weight includes chassis, controllers/IOMs, and PCBM/PCM, no drives or adapters)	

Technical specifications	HPE Alletra Storage 9000
Warranty	3/0/0 (3-years parts-only); 5/0/0 (for SSDs)

HPE Services

No matter where you are in your transformation journey, you can count on HPE Services to deliver the expertise you need when, where and how you need it. From strategy and planning to deployment, ongoing operations and beyond, our experts can help you realize your digital ambitions.

Advisory & Professional services

Experts can help you map out your path to hybrid cloud and optimize your operations.

Managed services

HPE runs your IT operations, giving you unified control, so can focus on innovation.

Support services

Optimize your entire IT environment and drive innovation. Manage day-to-day IT operational tasks while freeing up valuable time and resources.

- **HPE Complete Care Service:** a modular service designed to help optimize your entire IT environment and achieve agreed upon IT outcomes and business goals. All delivered by an assigned team of HPE experts.
- **HPE Tech Care Service:** the operational service experience for HPE products. The service provides access to product specific experts, an AI driven digital experience, and general technical guidance to help reduce risk and search for ways to do things better.
- **HPE Multivendor Services:** Single point of accountability for managing on-site hardware and software support for multivendor products. HPE experts help manage your IT across technologies and platforms for HPE and non-HPE technologies, acting as the single point of contact for your IT operational needs.

Lifecycle Services

Address your specific IT deployment project needs with tailored project management and deployment services.

HPE Education Services

Training and certification designed for IT and business professionals across all industries. Create learning paths to expand proficiency in a specific subject. Schedule training in a way that works best for your business with flexible continuous learning options

Defective Media Retention is optional and allows you to retain Disk or eligible SSD/Flash Drives replaced by HPE due to malfunction.

HPE GreenLake

[HPE GreenLake edge-to-cloud platform](#) is HPE's market-leading as-a-Service offering that brings the cloud experience to apps and data everywhere – data centers, multi-clouds, and edges – with one unified operating model, on premises, fully managed in a pay per use model.

If you are looking for more services, like **IT financing solutions**, please [explore them here](#).
